

Licensing Agency

Starting a new business or expanding your existing business, let us help you navigate the complex licensing process.

We offer two levels of service:

Checking service

Helping you **avoid unnecessary delays**, by thoroughly checking your completed application and guaranteeing your application is **valid** first time.

Application service

A personal **one-to-one service**; that meets your full licensing needs.

We **complete** and **submit** applications on your behalf and liaise with the relevant authorities.

Note: These services do not offer a guarantee your application will be approved
